

## The Path to Building Credit

MariSol believes that financial empowerment should be accessible to everyone. We are dedicated to providing fair and flexible loan options that help individuals and families build stronger, financial opportunities.

If you have limited or a poor credit score, a Credit Builder Loan can help you improve your score and pave the way for stronger financial growth.

Unlike traditional loans, Credit Builder funds are held in a share savings account. They earn dividends while you pay back the loan. Your consistent payments up your credit score, and funds are released to you when the loan is paid in full.

- \$500 Minimum/Maximum
- 6 month term
- 3.00% APR\*
- No credit report is required

## Start them Young with Smart Money Habits.

We all want our kids to have more opportunities than we had. Setting up a youth savings account is a smart way to help them build strong money habits early. It teaches them how to save, manage their finances, and set goals—all while earning a little interest. Plus, having their own account gives them a sense of responsibility.

Let them blossom with Youth Accounts for 17 and younger.
